FOREWORD

On the pitch, effective communication helps the players to work as a team and to implement the coach's strategy.

The same principles apply for sports organisations: with the rise of instant digital communications, it is crucial to be able to manage a crisis, handle internal communications and engage with key stakeholders on complex matters in the most efficient and compelling way, in order to align communications targets with the organisation's strategic goals.

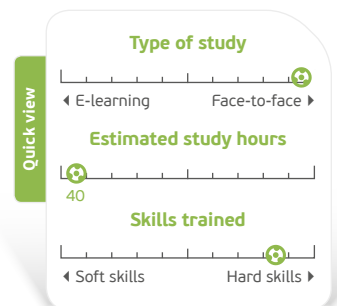

The UEFA Strategic Communications compact course was launched to ensure that key communications professionals in the sports industry are provided with the necessary tools to improve their knowledge in an increasingly disruptive environment.
