FIGHT THE FIX

AN ANTI-MATCH-FIXING
EDUCATION PROGRAMME

PROGRAMME OVERVIEW

The Fight The Fix programme (UEFA FTF) equips professionals involved in fighting match-fixing with the knowledge, tools and skills needed to gather intelligence, lead investigations and assist in prosecution proceedings.

The UEFA FTF programme is a unique training opportunity for professionals working in the field of anti-match-fixing, focusing on the competencies required to lead investigations and prosecute those involved. As well as providing participants with an in-depth knowledge of the phenomenon, the latest developments and monitoring tools, it also addresses the conditions and procedures of investigation and prosecution, from A to Z.

To develop capacities and strengthen relationships, the programme is also open to and beneficial for representatives of other institutions involved in the fight against match-fixing, such as public and law enforcement authorities and other sports organisations. The programme is designed to accommodate different profiles and backgrounds, taking into consideration differences and synergies among the participants when organising group work and activities.

In line with the programme's emphasis on hands-on practice, a fictitious match-fixing case will run the length of the programme. Working in small groups, participants will investigate suspected match-fixing, following the full intelligence and investigation process from identification to prosecution. The final stage will be a moot court, in which participants will be involved in simulated sports arbitration proceedings.
